   - Separated Interim Financial Statements for 2026 (reviewed);
   - Consolidated Interim Financial Statements for 2026 (reviewed);
   - Explanation of separated and consolidated business results.
7. The full content of the report was posted on our website: **www.vtctelecom.com.vn**
8. Explanation of business results:

Reasons for fluctuations in semi-annual business results for 2026 compared to the same period in 2025:

In the first six months of 2026, the Parent Company's revenue increased year-over-year. However, because revenue from most ongoing projects has not yet been recognized, total revenue remained low while operating expenses were fully incurred during the period, resulting in a net loss for the first half of 2026. The Parent Company's semi-annual revenue reached VND 179,677 million (an increase of 111% compared to the same period in 2025); profit after tax was negative VND 13,134 million (compared to negative VND 9,187 million in the same period in 2025).

The subsidiary—Smart Technology Investment and Development Joint Stock Company—has not yet recognized significant revenue from new products and services. Consequently, while interim revenue grew year-over-year, it remained relatively low. Interim revenue reached VND 35,489 million (up 31% year-over-year); profit after tax was negative VND 1,548 million (compared to negative VND 3,626 million in the same period in 2025).

Consolidated business results for the first half of 2026: Consolidated revenue reached VND 214,153 million (up 91% compared to the same period in 2025); consolidated profit after tax was negative VND 13,939 million (compared to negative VND 11,073 million in the same period in 2025). The Company is currently accelerating project implementation timelines to recognize revenue and profits in the final six months of the year.
